PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience building full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Experienced in developing RESTful APIs, implementing JWT authentication, and designing responsive, user-focused interfaces. Comfortable working across the stack, from database schema design to front-end component development, with a strong foundation in Object-Oriented Programming, Data Structures & Algorithms, and Git version control. Seeking an entry-level or internship Software Engineering role to contribute to full-stack development teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, C++

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, RESTful API Design, JWT Authentication, API Testing (Postman)

Databases: MongoDB, MySQL, Database Schema Design

Tools & Version Control: Git, GitHub, VS Code, Postman, MATLAB

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Computer Vision, Image Processing

KEY PROJECTS

SettleIn – Student Support Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT

- Architected and developed a full-stack student support platform using the MERN stack, enabling students to access support services through a centralized, responsive web application.
- Implemented secure JWT-based authentication for user registration, login, and session management, safeguarding user data across the platform.
- Designed and integrated RESTful APIs to manage dynamic data flow between the React.js frontend and Node.js/Express.js backend, ensuring seamless real-time data exchange.
- Configured a MongoDB database schema with role-based access control, supporting reliable, high-availability data storage and retrieval.

[Live Demo](#)

Wahab Auto

Tech Stack: React.js, Vite, Tailwind CSS

- Built and deployed a responsive website for an automotive business using React.js and Vite, presenting services and business information through a clean, user-friendly interface.
- Developed reusable, component-based UI elements styled with Tailwind CSS for consistent design across pages.
- Implemented responsive layouts to ensure a seamless browsing experience across desktop and mobile devices.

[Live Demo](#)

IshqeAura

- Developed and deployed a responsive front-end web application, focusing on clean UI design and a user-friendly browsing experience.
- Built with modern front-end web development practices to ensure consistent performance and layout across devices.

EDUCATION

BS Software Engineering — University of Gujrat, Pakistan

2022 – 2026 | CGPA: 2.99 / 4.00

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Software Engineering

Intermediate in Computer Science (ICS) — Punjab College, Pakistan

2020 – 2022

CERTIFICATIONS

HTML Essentials – Cisco | CSS Essentials – Cisco | JavaScript Essentials – Cisco | C++ Essentials 2 & Advanced – Cisco

LANGUAGES

Urdu: Native | English: Professional Working Proficiency
